

### Prepare Your Personal Flood Plan | Know Who to Contact and How

Floodwaters move fast, so develop a household plan, build your emergency kit, and connect with your neighbours. If you're in an area prone to flooding, reassess your property to determine if permanent 'works' would protect your home. Always seek professional advice and appropriate permission. When building new structures, ensure flood construction levels are followed.

**Think about items you can move to safety | Know how to turn off gas, electricity and water**  
**Check your insurance coverage | Make plans to stay with family or friends**

- ➔ Property owners need to take preventative measures to reduce the risk of property damage.
- ➔ Monitor and report significant changes or risks to your property. Sandbags are a last defence.
- ➔ The RDOS does not own or have jurisdiction on roads, right-of-ways, highways or creeks.
- ➔ The RDOS has the ability to undertake emergency measures when a State of Local Emergency (SOLE) is declared.

### Prepare Your Emergency Kit with Food, Water and Supplies for 3 - 7 Days

First Aid Kit with Manual + Prescriptions and Medications + Toiletries + AM/FM Radio + Food (ready to eat)  
Water + Special Requirements for Infants, Elderly, or Disabled + Pet Needs + Seasonal Clothing + Blanket  
Solar Cell Phone Charger + Spare Batteries + Pen & Notepad + Combination Pocket Knife + Spare Keys  
Whistle + Waterproof Flashlight + Map with Family Meeting Place Identified + Cash/ID/Passport/Credit Card  
Copies of Insurance and other Important Documents including Veterinary Records

Don't count on being home when there's an emergency.  
In addition to an emergency kit at home, create **grab-and-go bags** for your work and vehicles.  
You should include important documents, first aid kit and medications.

**If Your Home is Under an Evacuation Order** (see reverse)

# Wildfire Preparedness

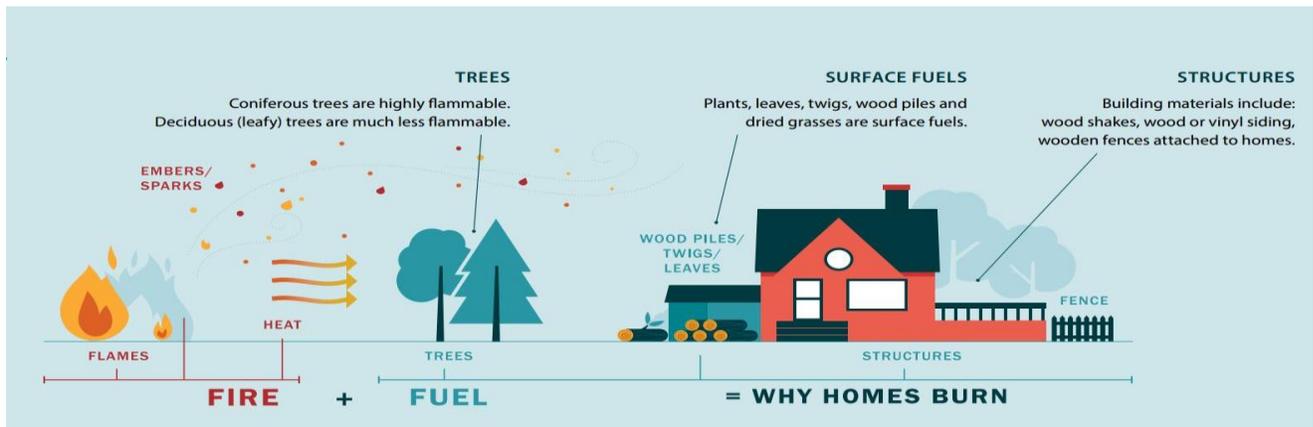

## Prevention

Flood Info 

We're in this together. Wildfire prevention can happen at home, in the backcountry, and through larger-scale fire and fuel management planning. Learn what you can do to help. Discarded cigarette butts, campfires, hot exhaust pipes coming into contact with dry grass and vegetation, power tools (such as chainsaws), Tiki torches and even discarded glass can all ignite a wildfire. As homeowners, we can take simple steps to reduce the impact of wildfire on our property and in our communities.

### Before You Leave

- Make sure you are safe before assisting others.
- Listen to the radio and TV for information from authorities.
- Shut off your home's [gas, water and electrical appliances \(not fridge or freezer\)](#)
- Post easy-to-see signs for water and gas shut-off valves.
- Gather your [grab-and-go bag](#) with personal items and documents.
- Close doors and windows.
- Remove combustible material, fuel and accelerants around your home and gutters.

### If Your Home is Under an Evacuation Order

- Gather your [grab-and-go bag](#) with personal items and documents.
- Follow instructions from local officials via TV, radio or social media.
- Move to a [safe location](#) outside the impacted area.
- Return home only when authorities say it is safe to do so.
- Register with Emergency Social Services (ESS) even if you don't go to a reception centre.
