

INFORMATION BULLETIN #17

May 24, 2018
Town of Osoyoos
For Immediate Release

Assessing Properties on Evacuation Order

The Town of Osoyoos is actively working on **assessing properties** to determine if residents can return home. There is a **formal process** that must be followed and you will be advised as to when you may return home.

All **sandbags should remain** in place until further notice. A plan is currently being established for the removal and disposal of sandbags once conditions exist where there is no longer a threat of flooding.

Residents are asked to remain patient during this time.

Your cooperation and understanding during this period is greatly appreciated.
