

# PRESS RELEASE

## WATER QUALITY ADVISORY RESCINDED

### SUN VALLEY WATER SYSTEM USERS

January 24, 2019

---

The Regional District of Okanagan-Similkameen in consultation with the Interior Health Authority is rescinding the **Water Quality Advisory** (issued December 21<sup>st</sup>, 2018) for the Sun Valley water system.

Since the distribution system was flushed on December 5<sup>th</sup>, there have been no reported results for Total Coliforms. The RDOS will be closely monitoring the weekly bacteriological results from the system to determine the need for further flushing of the system.

The RDOS would like to remind residents that a **Boil Water Notice** will automatically be issued anytime that there is an electrical power outage of a duration that results in partial or complete loss of water pressure in the Sun Valley system.

For further information, please contact the Public Works Department at (250) 490-4106 or (250) 490-4135.

Thank you for your cooperation.
