

Does Irrigation = Irritation to you? Are you 'zoned' out? Do you need help with your system?

FREE Workshop at West Bench Elementary Gym

Saturday, April 22nd (Earth Day) 10:30 am - 1:30 pm

1604 West Bench Dr. Penticton

Carlos Pacheco of Irrigation Design Management

We are pleased to have Carlos Pacheco provide an informative presentation on residential irrigation. Reducing water consumption while keeping your lawn and landscapes healthy.

In the Zone:

Irrigation 101: What you need to consider, when to call in the professionals
Installation and maintenance—leak detection

Tips and Tricks:

What you should know about your system; how to tweak it
What's new and worth the investment

Questions and Answers: bring all your pesky irrigation conundrums

Joining Carlos is **Okanagan Xeriscape Association**, Program Director, Eva Antonijevic. Eva will have take-away print materials and show examples of low water plants, that can look beautiful year round. She can provide advice on landscape dilemmas, how to integrate horticultural favorites into your landscape, working within your irrigation requirements.

Both presenters will be available to answer questions after the workshop
